

NGALATAN-YAMMI CLAN ASSN.

October 24, 2008
Press Con.
Surface James Balao

We in the clan want to inform the press that the work of James in the clan is so important and we need him so much.

His main work in the clan is to gather datas of the clan members and compile this datas in a book sana. Gathering kung sino and mga anak nito or parents nito, so we could form the clan book. As a matter of fact we plan to finish the gathering of datas within this year and it's so sad James is not here.

Together with the other officers we plan for the yearly reunion programs and activities. It's a mere gathering of blood relatives, in order to see how we could help each other in terms of social obligations.

Actually the whole family members love him, that's why we voted for him as president of the clan for 3 terms.

We are pleading to those who abducted James to please release him safely. We want him this coming next summer reunion on May 1, 2009. I believe that every person is entitled to due process of law.

We are praying that our sleepless nights, fear and tension ends. May the Lord bless us all. Thank you and God bless.

Letty A. Queleme
Clan Secretary
